

PRESS RELEASE

ZEROEMISSION 2021

The Italian trade show dedicated to zero-emission electricity production, storage, transport and mobility, looks forward to seeing you at Piacenza Expo

23 – 24 JUNE 2021

Mila, 3 February 2021

ZEROEMISSION 2021 – scheduled to take place 5-6 May 2021 – has been postponed to give all operators of the sector the possibility of developing their business in the best way possible.

Associations of the sector supporting the event, along with the Scientific Committee, are already working on the organisation of the programme of top-level meetings and conferences part of the Show.

About 10,000 operators of the sectors are expected to be present at Piacenza Expo in complete safety, who have expressed their need and wish to finally be able to really participate in an event on the development of commercial collaboration and professional updating.

The marketing and organisational team of ZEROEMISSION 2021 is therefore completely operational, continuing the development of the project, which will be divided into the following thematic exhibitions: **SOLAR+ 2021** (dedicated to the industrial sector of electricity produced from the sun), **INVERTER WORLD 2021** (dedicated to the industrial sector of inverters, ups and eps), **BATTERY WORLD 2021** (dedicated to the industrial sector of batteries and electro-chemical storage systems), **EV WORLD 2021** (dedicated to the industrial sector of electric vehicles and infrastructures for electrical transport and mobility) and **HYDROGEN & FUEL CELLS 2021** (dedicated to the industrial sector of hydrogen coming from renewable sources, and fuel cells).

Looking forward to meeting all operators of the sector from 23 to 24 June 2021, the staff of ZEROEMISSION is available to provide further information.
